

Kitesurf Cabo Verde

Kitesurf material storage

Kitesurf storage and safety monitoring is the only way of getting income for us.

Our aim is to making sure that all kitesurfers coming to the beach are safe on the water and that their material can be store safely so that they can enjoy each kitesurf in our little hidden gem.

If you want to come to Salamansa beach without the hassle of bringing your equipment every day from Mindelo kitesurf storage at the beach it is great idea.

Kite material can be stored safely at the local shack offering crepes which is right at the kitesurf spot. Please keep in mind that there is no proper kitesurf storage so you cant lock your own materials separately.

Nevertheless is possible to keep your material in primitive but safe place.

By using our storage you will support us by paying 3 euro per day.
